About Myself

Figure 1 As master trainer for PSMB

Most of my biodata can be found in my resume and here I would like to emphasize on my personality.

Figure 2 This picture summarized my hobbies, the bird photo was taken by me and a microscope at home is definitely rare

I am a technical guy with science inclination since I was born. I did experiments at home since I was 6 and even have my own mini lab at home when others was running around at the playground. My hobbies are diverse ranging from writing to the newspaper, plastic aircraft model, astronomy, microscopy, chemistry, electronics and the list never ends as long as it has something to do with science and technology. Now I am into digital photography and my first entry into an internet photo competition got me into final.

Figure 3 My masterpiece photographed exposing my attention to detail

I started out as a Support Engineer at Perak Information Technology Centre where I was one of the members in setting up of www.perak.gov.my server in 1995, big steps in those days.

When I first started my company in 1997, It began from scratch and I basically know how a company is built right to the day to day operation.

I have technical writing inclination and like to explain process. Excel in troubleshooting, I love to read the manuals and to produce one.

My training skills developed while I was teaching at Cosmopoint Ipoh and Mara Infotech Academy in 2000 for LAN and PC troubleshooting.

Figure 4 Palmprint Activities Conducted by Asni

I have a strong inner desire of making others really understand what I try to teach. When I was teaching the teachers on IT skills under TIME System Integrator teacher's IT awareness program, I was highly appreciated for my enthusiasm in conveying my knowledge.

Figure 5 Teachers doing project

During my stint as a Project Manager for DRB-Hicom IT (DHIT) School Lab Computerization Training 2004 on behalf of Bostonweb Academy, I am responsible in

Figure 6 My DRB-Hicom training project report

- Searching and screening the trainers
- Preparing, layout, editing, printing the manual
- Preparing the Trainer Slide
- Preparing Trainer's Kit
- Doing In house training
- Budgeting with project valued at around RM500,000
- Liaising with Education Officers
- Deployment of trainer to 45 centres almost to all over Malaysia, 10 simultaneous deployment at once
- Caterers & Accommodation
- Site Visit
- Financial Controller

- Quality Control
- My project report is available upon request.

Figure 7 Manual prepared by my team and edited by me for DRB-Hicom IT and Ministry Of Education

Figure 8 Icebreaking Session Prepared by Asni

Figure 9 Asni conveying knowledge

Figure 10 Asni monitoring trainee's progress

I was involved in the development of Web Publishing & Web Application Development modules for Perbadanan Sumber Manusia Berhad under Skim Latihan Graduan. I was also one of the master trainer to train the trainers for the said scheme.
